Key Benefits

- Fully integrated operation
- Effectively track and manage inventory
- Immediate update
- Standing orders
- Materials Requirements Planning (MRP)
- Electronic Data Interchange (EDI)

By tracking your commitments to suppliers as they are made, you can accurately track your cash flow requirements and reduce the potential for disputes as supplier invoices are received. Prices quoted at the time of ordering can be compared with the supplier invoice and quantities received can be checked against the original order.

Fully integrated operation

The Purchase Orders module allows for the entry of orders for: Inventory items, General Ledger (i.e. non stock) purchases, Fixed Assets purchases and Job-related expenses. Information is updated immediately to all other Greentree modules, ensuring your staff have up to date information on what orders have been entered, their expected delivery time frames, and their status.

Purchase Orders is also fully integrated with Accounts Payable, which means as supplier invoices are entered, the relevant purchase order details can be updated directly onto the invoice without the need to re-key any details. This not only saves time, but also reduces the risk of error and allows variances between the purchase order and supplier invoice(s) to be highlighted.

No.	Type	Tax	Comp/Account/Code	Description	Trial/SubCode/L/UDM/Work Cer	Expected Date	Qty Ordered	Price
1	IN	E	TIMBER-PINE	PINE BOARDS	A01 MTR	6/10/10	20.0000	40.0000
2	IN	E	TIMBER-RIMU	HEART RIMU	A01 MTR	6/10/10	25.0000	56.0000
3	IN	E				6/10/10	0.0000	0.0000

Simple and powerful Purchase Order management

Immediate update

Inventory is often received and on-sold to customers before the supplier's invoice has been entered. Greentree provides the ability for inventory to be received into your warehouse and made available for immediate resale, regardless of whether the supplier invoice has been received. This ensures you are able to on-ship items to your customers quickly and accurately.

Standing orders

Recurring or Standing Orders may be defined in the system and automatically processed as often as you require. This ensures regular orders to your suppliers are processed efficiently and without the risk of being overlooked.

Materials Requirements Planning (MRP)

The Purchase Order module fully integrates with the Materials Requirements Planning (MRP) module.

MRP references numerous key business activities including sales forecasts, sales orders, purchases orders and inventory to determine exactly when and what items are required to be purchased to provide the most timely and competitively priced products and services for customers.

MRP generates suggested actions to monitor overdue purchase orders, orders that can be deferred and advice of purchase orders that are no longer required as a result of changing demand. MRP is ideal for distribution businesses to provide accurate planning of inventory purchasing requirements.

Improved productivity through data handling efficiencies

Greentree's EDI allows data to be entered once only, by the initiator. From there it flows effortlessly and instantaneously through connected systems according to established business rules. Staff are freed from needless re-keying offering significant opportunities to improve workflow management and ultimately improve business productivity.

Reduce distribution costs - use 'drop ship' supplier-to-customer delivery

If you're looking to reduce distribution costs or you simply don't have a distribution centre you can automatically assign a customer's delivery address to a purchase order so goods are delivered from the supplier directly to the customer. This is ideal for web-based businesses where the key focus is to sell goods and distribute them directly to the customer at the best possible price.

WHY GREENTREE?

MANY SOFTWARE PACKAGES COME WITH ADD-ONS, COMPROMISES AND HALF-HEARTED SOLUTIONS.

Greentree believes you need the reassurance of business software that is both comprehensive and integrated, breaking down barriers and powering you to get on with business.

Responsive and flexible, Greentree provides you with a wide variety of modules and sub-modules rarely found in other packages. You switch on the pieces you need, effectively matching the system to fit your business. As your business evolves, Greentree grows with you.

Exploit its accuracy in business metrics; challenge its capability to deliver insightful information. Greentree eradicates long, complicated tasks and effortlessly manages change, to help grow business potential.

Whatever the need, Greentree gives you choices that are cost-effective and proven. Thousands of companies, large and small, have at their fingertips Greentree's simple, smart thinking that empowers better decisions, better prospects.

And, with a partnership network that spans many countries, Greentree is totally accessible. Your unique needs will drive the way Greentree and its partners respond to you. If the only thing missing from this equation is your business, then get in touch – after all, three heads are better than one.

GET READY TO BE PRIMED FOR BUSINESS.
