"Greentree
announced
as one of top
25 Global
Rising Stars"

25
RISING STARS

"It's quite simple. We listen hard, we work hard and we run a totally focused business - and because of that we offer the smartest, most flexible solutions to help build your business."

Don Bowman, Founder – Greentree International Ltd

"Greentree is very responsive and the real time processing really aids the decision making process and reporting. With no more batch delays and updates to wait for, we are more proactive and have the real information at our fingertips."

Eric Gillott, Financial Accountant – AS Wilcox

"Greentree solved all of our immediate integration problems with huge potential to add-in new technologies in the future."

Kym Thompson, Financial Controller – John Goss Projects

"The support partner team were very good at helping us out when we were in a corner with the ticket system, they worked very hard to get it done effectively and efficiently."

Albert Giorgini, Financial Controller – Veolia Transport

"We needed to move quickly and Star was able to respond to our needs at every stage of the project. Their responsiveness to our requirements during implementation and with on-going support has lived up to our expectations. We went live on time and with minimal disruption to our daily business functions."

Jackie Elliss and Tony Martin, Directors – Provincial Distributors

"The ability to slice, dice and dissect the data using the Excel tools is exceptional. Greentree's integration to Excel has made a dramatic impact on the amount of time we spend analysing data and resolving issues."

Andrew Neville, Manager of Finance – Centacare Catholic Family Services

"As we are a not for profit organisation, we have to be diligent in making sure the money is well spent. We are getting the best value from both the Greentree product and professional services offered by the Greentree Business Partner. We have had good account management from great consultants who have been supportive of what we want to achieve."

Fei Lim, Accountant – Anglican Youthworks

Greentree[®]
BUSINESS-BUILDING SOLUTIONS

"very very responsive"

"We are free to be more creative and sales driven, give our customers more attention and speed up the clearance of our stocks. Overall, we have improved the bottom line. We have business goals like all companies and we believe we can achieve them better with Greentree in place."

Greg Johnston, Accountant – Newfishing

Greentree®
BUSINESS-BUILDING SOLUTIONS

"Very, very responsive"

A nose for success

“Very, very accessible”

“Key attributes of success are Greentree’s reliability, support for remote access from all Australian offices that span from Perth to Darwin and North Queensland and its ease of use. To top it off I can access the system from wherever I am.”

Jay Westor, Managing Director – Leap Australasia

“Very, very flexible”

“Greentree has taken us that next step further and the benefit has been that we’ve not had to change things. The system, unlike many others I looked at, was flexible enough to fit around us, rather than the other way around. It’s offered us improvements and efficiencies without forcing us to re-engineer.”

Paul Italiano, General Manager – Maria’s Pasta

“Very, very integrated”

“Greentree won against SAP Business One and Sage, not least because it offered an integrated manufacturing module — one feature we had decided was crucial before looking for our replacement software.”

*Kenneth Andersen, Financial Controller
– Pacific Marine Batteries*

“Very, very alive”

“We have achieved far more than we ever expected to. Greentree has freed up so much more of our time, I can’t say enough positive things about it.”

*Andrew Neville, Manager of Finance
– Centacare Catholic Family Services*
